

First Semester Course Preference Planning Worksheet

Getting Started: The First Semester Course Preference Planning Worksheet will be your guide as you select your preferences for your Fall semester schedule. This sheet in conjunction with the [FYREG website](#) will provide you step-by-step guidance as you select your preferred course options. You may complete this form ahead of time and reference it when taking the actual survey.

- **Step 1:** For a more accurate placement, it is important to take the appropriate [placement exams](#). Placement exams include Math, Chemistry, & Languages. Make sure to read all information presented to you to gain a better understanding of your particular situation.
- **Step 2:** Explore [Lafayette's Majors & Programs](#): As a student you will not officially declare your major until your second semester of sophomore year, however thinking about your intended area of study is very important.
- **Step 3:** All first year students must enroll in an FYS course. Take time to review the [First-Year Seminar course listing](#). Although we try our best to honor your top choices, FYS placement depends largely on scheduling and availability.
